Bed Occupancy

Month	Number of inpatient days in a given Month.	Number of available bed days in that Month.	Bed Occupancy Ratio.
Oct'2025	59	590	10
Nov'2025	55	497	11
Dec'2025	55	488	11

Bed Occupancy Ratio = Number of available bed days in that Month

For a bed to be included in the official count, it must be set up, staffed, equipped and available for patient care.
Inpatient Days: A patient day is the unit of measure denoting lodging provided and services rendered to inpatients between the census taking hours (usually at midnight) of two successive days. A patient formally admitted who is discharged or dies on the same day is counted as one patient

Available bed days- It is the product of number of inpatient beds and number of days in that month.
Number of inpatient days-It is a sum of daily inpatient census.
